Professional Certifications taken at a Certification Center

Our **Professional Certifications** attests the capacity to perform in a job role in a professional environment.

Professional Certification exams are delivered online at one of our authorized Certification Centers in a proctored environment. To book an exam, contact one of our [Dassault Systèmes Certification Centers](#) close to your location.

- **Public** centers are run by our Education Partners and open to anybody.
- **Private** centers are Academic Certification Centers, only open to the school or university's students.

If you are a student you should also ask your professor whether your university or school has a Dassault Systèmes Academic Certification Center where you can take the exams.

The rapid pace of technological change is demanding new skills from today's workers – skills that employers have difficulty finding due to short supply and intense competition. Business and education leaders recommend that companies adopt the **3DEXPERIENCE** platform. Through a single, easy-to-use interface, the platform powers their industry processes, based on 3D design, analysis, simulation, and intelligence software in a collaborative, interactive environment.

As a Certified **3DEXPERIENCE** platform User, you can boost your career and demonstrate your proficiency in world-leading industry design solutions.

3DEXPERIENCE Collaborative Business & Industry Innovator - Professional

Chinese-only proctored Certification

The following certification are **only available in Chinese**, they have been developed by the our Learning department in China, especially for the Chinese market.

3DEXPERIENCE Civil Designer for Fabrication - Associate (only in Chinese)

This exam is only available in Chinese and is delivered by Certification Centers located in China.

3DEXPERIENCE Bridge Engineer - Associate (only in Chinese)

This exam is only available in Chinese and is delivered by Certification Centers located in China.

3DEXPERIENCE Fluid 3D Systems Designer for Constructions, Cities & Territories - Associate (only in Chinese)

This exam is only available in Chinese and is delivered by Certification Centers located in China.

GEOVIA Surpac Geology - Associate (only in Chinese)
